FOR THE EASTERN DISTRICT OF TEXAS  
MARSHALL DIVISION**

SYMOLOGY INNOVATIONS, LLC,	§	
	§	
Plaintiff,	§	Case No:
	§	
vs.	§	PATENT CASE
	§	
BEACON PAYMENTS LLC	§	
	§	
Defendant.	§	
	§	

---

**COMPLAINT**

Plaintiff Symbology Innovations, LLC (“Plaintiff” or “Symbology”) files this Complaint against Beacon Payments LLC (“Defendant” or “Beacon”) for infringement of United States Patents No. 8,424,752, No. 8,651,369, and No. 8,936,190 (hereinafter “the ‘752 Patent,” “the ‘369 Patent,” and “the ‘190 Patent”).

**PARTIES AND JURISDICTION**

1. This is an action for patent infringement under Title 35 of the United States Code. Plaintiff is seeking injunctive relief as well as damages.

2. Jurisdiction is proper in this Court pursuant to 28 U.S.C. §§ 1331 (Federal Question) and 1338(a) (Patents) because this is a civil action for patent infringement arising under the United States patent statutes.

3. Plaintiff is a Texas limited liability company with its principal office located at 1400 Preston Road, Suite 400, Plano, Texas 75093.

4. On information and belief, Defendant is a privately held company, with its principal place of business at 25 Temple Place, Boston, MA 02111.

5. This Court has personal jurisdiction over Defendant because Defendant has committed, and continues to commit, acts of infringement in the state of Texas, has conducted business in the state of Texas, and/or has engaged in continuous and systematic activities in the state of Texas.

6. Upon information and belief, Defendant's instrumentalities that are alleged herein to infringe were and continue to be used, imported, offered for sale, and/or sold in the Eastern District of Texas.

**VENUE**

7. Venue is proper in the Eastern District of Texas pursuant to 28 U.S.C. §§ 1391(c) and 1400(b) because Defendant is deemed to reside in this District. In addition, and in the alternative, Defendant has committed acts of infringement in this District.

**COUNT I**  
**(INFRINGEMENT OF UNITED STATES PATENT NO. 8,424,752)**

8. Plaintiff incorporates paragraphs 1 through 7 herein by reference.

9. This cause of action arises under the patent laws of the United States and, in particular, under 35 U.S.C. §§ 271, *et seq.*

10. Plaintiff is the owner by assignment of the '752 Patent with sole rights to enforce the '752 Patent and sue infringers.

11. A copy of the '752 Patent, titled "System and Method for Presenting Information about an Object on a Portable Electronic Device," is attached hereto as Exhibit A.

12. The '752 Patent is valid, enforceable, and was duly issued in full compliance with Title 35 of the United States Code.

13. Upon information and belief, Defendant has infringed and continues to infringe one or more claims, including at least Claim 1, of the '752 Patent by using and/or incorporating

Quick Response Codes (QR codes) in one or more Internet websites in a manner covered by one or more claims of the ‘752 Patent. Defendant has infringed and continues to infringe the ‘752 Patent in violation of 35 U.S.C. § 271.

14. On information and belief, Defendant has, at least through internal testing, used or incorporated QR codes in one or more Internet websites, associating such QR codes with products and/or services. One specific example of Defendant’s activity involves the use of QR codes in connection with advertising for its payment processing services and QR code payments.

15. For example, on information and belief, Defendant has at least internally tested the functionality of its QR codes in connection with its payment processing services. On information and belief, Defendant has captured a digital image of a QR code associated with its payment processing services as provided, for example, on Defendant’s website at:

<http://www.beaconpayments.com/merchant-services/mobile-payments/qr-payments>

For example, as shown below in a partial screen shot from the latter website, one or more QR codes is shown associated with advertising for Defendant’s payment processing services.

## QR CODE PAYMENTS

This is a QR Code:

A customer can pay you with a QR code through their smartphone. They can store their credit card information in their phone instead of carrying credit cards around. The business owner simply scans the QR code and the payment is completed. This is proving to be more secure than standard credit card transactions and can greatly reduce the time it takes to make a payment.

How to Accept a QR Code Payment?

We can set our system up to accept QR code payments as well as NFC, EMV, and mobile wallets. Contact us today to find out more.

- ◆ Gift and Loyalty Cards
- ◆ Merchant Cash Advance
- ◆ Signature Capture
- ◆ Check Processing
- ◆ EMV

[APPLY TODAY!](#)

16. Defendant's advertisement of its payment processing services informs users that customers can pay merchants with a QR code through their smartphone. On information and belief, at least through internal testing, Defendant has used a digital image capturing device of a portable electronic device, such as the camera component of a smart phone for example, to capture a digital image of the QR code(s) associated with the advertisement of Defendant's payment processing services.

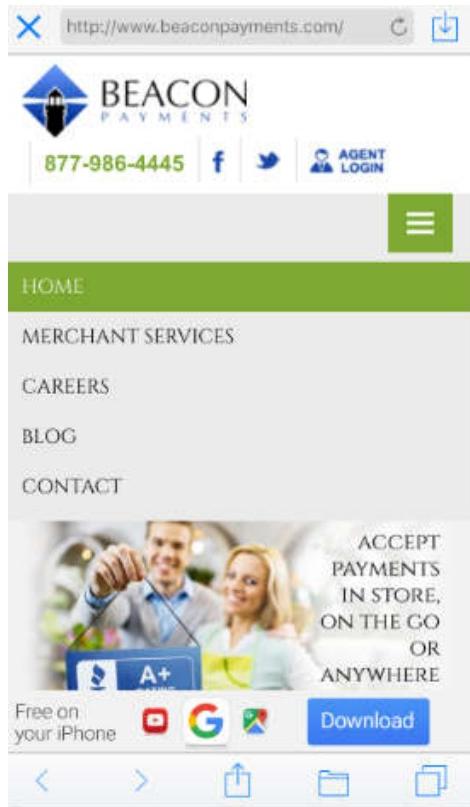

17. On information and belief, Defendant's capture of the digital image is processed by scanning technology loaded onto the portable electronic device. The scanning technology detects symbology (for example, a pattern within the QR code) associated with an object (for example, the QR code itself). On information and belief the scanning technology is used to decode the symbology to obtain a decode string. The decode string is sent to a remote server for further processing. Based on the decode string, the remote server sends information

associated with the QR code, which is received by the user of the portable electronic device and displayed on a display associated with the portable electronic device.

18. For example, if a user scans a QR code in the advertising associated with Defendant's payment processing services, scanning technology decodes the pattern of the QR code to obtain a decode string and sends the decode string to a remote server. The server returns information associated with the QR code. In this example, the information received by the user and displayed on the portable electronic device is information about Defendant's payment processing services including descriptions of various merchant services, merchant account types, a download link, a blog, and the like. The information is associated, for example, with a website at:

<http://www.beaconpayments.com/>

and the information displayed is illustrated by the partial screen shot below.

19. Defendant's actions complained of herein will continue unless Defendant is enjoined by this court.

20. Defendant's actions complained of herein are causing irreparable harm and monetary damage to Plaintiff and will continue to do so unless and until Defendant is enjoined and restrained by this Court.

21. Plaintiff is in compliance with 35 U.S.C. § 287.

**COUNT II**  
**(INFRINGEMENT OF UNITED STATES PATENT NO. 8,651,369)**

22. Plaintiff incorporates paragraphs 1 through 21 herein by reference.

23. This cause of action arises under the patent laws of the United States and, in particular, under 35 U.S.C. §§ 271, *et seq.*

24. Plaintiff is the owner by assignment of the '369 Patent with sole rights to enforce the '369 Patent and sue infringers.

25. A copy of the '369 Patent, titled "System and Method for Presenting Information about an Object on a Portable Electronic Device," is attached hereto as Exhibit B.

26. The '369 Patent is valid, enforceable, and was duly issued in full compliance with Title 35 of the United States Code.

27. Upon information and belief, Defendant has infringed and continues to infringe one or more claims, including at least Claim 1, of the '369 Patent by using and/or incorporating Quick Response Codes (QR codes) in one or more Internet websites in a manner covered by one or more claims of the '369 Patent. Defendant has infringed and continues to infringe the '369 Patent in violation of 35 U.S.C. § 271.

28. On information and belief, Defendant has, at least through internal testing, used or incorporated QR codes in one or more Internet websites, associating such QR codes with

products and/or services. One specific example of Defendant's activity involves the use of QR codes in connection with advertising for its payment processing services.

29. For example, on information and belief, Defendant has at least internally tested the functionality of its QR codes in connection with the Health Mobile App. On information and belief, Defendant has captured a digital image of a QR code associated with its payment processing services as provided on Defendant's website, for example, at:

<http://www.beaconpayments.com/merchant-services/mobile-payments/qr-payments>

For example, as shown below in a partial screen shot from the latter website, one or more QR codes is shown associated with advertising for Defendant's payment processing services.

The screenshot shows a partial view of the Beacon Payments website. At the top, there is a header with the Beacon Payments logo, phone number 877-986-4445, social media links for Facebook and Twitter, and an Agent Login link. Below the header, a navigation bar includes links for HOME, MERCHANT SERVICES, CAREERS, BLOG, and CONTACT. Under the MERCHANT SERVICES link, there is a sub-menu with several items: Credit Card Processing, Mobile Payments, Mobile Wallets, smartphone payments, NFC, **QR Payments** (which is highlighted with a gray background), Point Of Sale, Credit Card Terminals, Gift and Loyalty Cards, Merchant Cash Advance, Signature Capture, Check Processing, and EMV. In the center of the page, there is a section titled "QR CODE PAYMENTS" with a sub-section "This is a QR Code:" followed by a QR code. Below the QR code, there is descriptive text about how customers can pay with a QR code through their smartphone. To the right of this text, there is a large list of payment processing services. At the bottom right of the page, there is a button labeled "APPLY TODAY!".

30. Defendant's advertisement of its payment processing services informs users that customers can pay merchants with a QR code through their smartphone. On information and belief, at least through internal testing, Defendant has used a digital image capturing device of

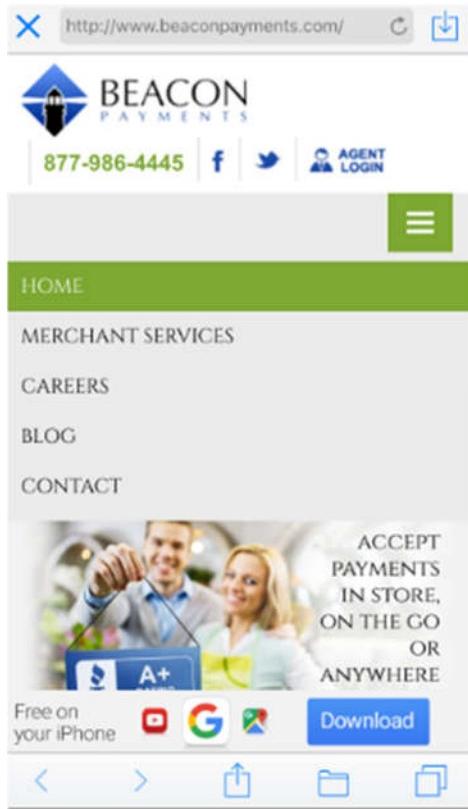

a portable electronic device, such as the camera component of a smart phone for example, to capture a digital image of the QRs code(s) associated with the advertisement of Defendant's Health Mobile App.

31. On information and belief, Defendant's capture of the digital image is processed by scanning technology loaded onto the portable electronic device. The scanning technology detects symbology (for example, a pattern within the QR code) associated with the digital image. On information and belief the scanning technology is used to decode the symbology to obtain a decode string. The decode string is sent to a remote server for further processing. Based on the decode string, the remote server sends information associated with the QR code, which is received by the user of the portable electronic device and displayed on a display associated with the portable electronic device.

32. For example, if a user scans a QR code in the advertising associated with Defendant's payment processing services, scanning technology decodes the pattern of the QR code to obtain a decode string and sends the decode string to a remote server. The server returns information associated with the QR code. In this example, the information received by the user and displayed on the portable electronic device is information about Defendant's payment processing services including descriptions of various merchant services, merchant account types, a download link, a blog, and the like. The information is associated, for example, with a website at:

<http://www.beaconpayments.com/>

and the information displayed is illustrated by the partial screen shot below.

33. Defendant's actions complained of herein will continue unless Defendant is enjoined by this court.

34. Defendant's actions complained of herein are causing irreparable harm and monetary damage to Plaintiff and will continue to do so unless and until Defendant is enjoined and restrained by this Court.

35. Plaintiff is in compliance with 35 U.S.C. § 287.

**COUNT III**  
**(INFRINGEMENT OF UNITED STATES PATENT NO. 8,936,190)**

36. Plaintiff incorporates paragraphs 1 through 35 herein by reference.

37. This cause of action arises under the patent laws of the United States and, in particular, under 35 U.S.C. §§ 271, *et seq.*

38. Plaintiff is the owner by assignment of the '190 Patent with sole rights to

enforce the ‘190 patent and sue infringers.

39. A copy of the ‘190 Patent, titled “System and Method for Presenting Information about an Object on a Portable Electronic Device,” is attached hereto as Exhibit C.

40. The ‘190 Patent is valid, enforceable, and was duly issued in full compliance with Title 35 of the United States Code.

41. Upon information and belief, Defendant has infringed and continues to infringe one or more claims, including at least Claim 1, of the ‘190 Patent by using and/or incorporating Quick Response Codes (QR codes) in one or more Internet websites in a manner covered by one or more claims of the ‘190 Patent. Defendant has infringed and continues to infringe the ‘190 Patent in violation of 35 U.S.C. § 271.

42. On information and belief, Defendant has, at least through internal testing, used or incorporated QR codes in one or more Internet websites, associating such QR codes with products and/or services. One specific example of Defendant’s activity involves the use of QR codes in connection with advertising for its payment processing services.

43. For example, on information and belief, Defendant has at least internally tested the functionality of its QR codes in connection with its payment processing services. On information and belief, Defendant has captured a digital image of a QR code associated with its payment processing services as provided on Defendant’s website, for example, at:

<http://www.beaconpayments.com/merchant-services/mobile-payments/qr-payments>

For example, as shown below in a partial screen shot from the latter website, one or more QR codes is shown associated with advertising for Defendant’s payment processing services.

and the information displayed is illustrated by the partial screen shot below.

47. Defendant's actions complained of herein will continue unless Defendant is enjoined by this court.

48. Defendant's actions complained of herein are causing irreparable harm and monetary damage to Plaintiff and will continue to do so unless and until Defendant is enjoined and restrained by this Court.

49. Plaintiff is in compliance with 35 U.S.C. § 287.

**PRAYER FOR RELIEF**

WHEREFORE, Plaintiff asks the Court to:

- (a) Enter judgment for Plaintiff on this Complaint on all causes of action asserted herein;
- (b) Enter an Order enjoining Defendant, its agents, officers, servants, employees, attorneys, and all persons in active concert or participation with Defendant who receive notice of the order from further infringement of United States Patents No. 8,424,752, No. 8,651,369, and No. 8,936,190 (or, in the alternative, awarding Plaintiff running royalties from the time of judgment going forward);
- (c) Award Plaintiff damages resulting from Defendant's infringement in accordance with 35 U.S.C. § 284;
- (d) Award Plaintiff pre-judgment and post-judgment interest and costs; and
- (e) Award Plaintiff such further relief to which the Court finds Plaintiff entitled under law or equity.

Dated: April 26, 2016
